

January 10, 2019

Honorable Toby Barker
Mayor
City of Hattiesburg
P.O. Box 1898
Hattiesburg, MS 39403-1898

RE: 38th AVENUE STREETSCAPE PROJECT
LETTER AGREEMENT FOR PROFESSIONAL SERVICES

Dear Mayor Barker:

Neel-Schaffer is pleased to offer our professional engineering services to the City of Hattiesburg in reference to the 38th Avenue Streetscape Project. Our services will be provided for a fixed fee of \$131,353.44 and will be in accordance with Exhibit A – Scope of Work, Exhibit B – Project Map/Typical Section and Exhibit C – General Terms and Conditions, which are attached hereto and made part of this Letter Agreement.

Please indicate your acceptance of this Agreement by executing all three (3) original documents and returning one to our office. Thank you for the opportunity to be of continued service to the City of Hattiesburg.

Sincerely,

Neel-Schaffer, Inc.

Geoffrey Crosby, P.E.
Senior Project Manager

EXHIBIT A

Scope of Work

This PROJECT includes adding a landscaped center island, an asphalt overlay and pathway lighting along 38th Avenue from Hardy Street to 4th Street as shown in Exhibit B – Project Location Map and Typical Sections. It also includes a traffic signal at the intersection of 38th Avenue and Montague Blvd. and sidewalk along the South side of Hardy Street from 37th Avenue to 38th Avenue.

The CONSULTANT shall prepare all plans, specifications, and provide an Opinion of Probable Cost (PS&E Assembly) as indicated in the LPA Project Development Manual.

The following engineering services shall be performed by the CONSULTANT on behalf of the Local Public Agency (LPA) in accordance with this CONTRACT at the direction of the LPA, unless otherwise modified by the Mississippi Department of Transportation (MDOT).

A monthly status report along with an updated project schedule is required. This report is to be submitted by the 7th of each month to the LPA for their signature and then submitted to the District LPA Coordinator. This monthly report is to be submitted by the CONSULTANT and will update the LPA on the status of the project. Recent milestones in plan development, such as the submittal of plans for review, shall be documented. Also, the target dates for the future milestones should be included.

TYPICAL ITEMS/MATERIALS PROVIDED BY THE LPA:

Based upon availability, the LPA will provide within normal resources of the LPA, the following:

1. Maps, aerial photographs, and other cartographic items as may be available;
2. Available old construction plans, drawings, and maps pertinent to the project;
3. Names, addresses, and telephone numbers of points of contact which may prove useful to the CONSULTANT in conducting this analysis;
4. A single point of contact within the LPA for day-to-day coordination of each CONTRACT;

GENERAL REQUIREMENTS:

As directed, the CONSULTANT shall provide engineering/technical assistance to perform specific assignments requiring needed expertise or staff resources unavailable to the LPA.

Manuals, guides, and specifications applicable to this CONTRACT shall be those approved and adopted by the MDOT and in effect on the effective date this CONTRACT unless otherwise specified in the CONTRACT or subsequently directed by the MDOT during the course of this CONTRACT.

The design of roadways shall be in compliance with the MDOT Roadway Design Manual, and supplemented with updated design policies as described in design memos, American Association of State Highway and Transportation Officials (AASHTO)'s Policy on Geometric Design Of Highways and Streets; MDOT Standard Drawings (roadway and bridge), MDOT Roadway CADD Manual; MDOT Standard Specifications for Road and Bridge Construction; and the Manual on Uniform Traffic Control Devices (MUTCD)l. The latest edition of the aforementioned documents shall be used.

This project shall be performed using English units.

It is the responsibility of the CONSULTANT to request and receive approval from the LPA's Project Manager prior to making any changes to plans developed under this contract. This requirement includes plans developed by any subconsultants. As a minimum, the Scope of Work shall be divided into the following phases:

FIELD REVIEW PLANS

Part 1 -- Pre-Design Conference

Part 2 -- Conceptual Plans

Part 3 -- Field Inspection Plans

Part 4 -- Office Review Plans

Part 5 -- Final Contract Plans

FIELD SURVEY:

The CONSULTANT shall survey the project utilizing standard surveying practices as required to prepare preliminary and final contract plans.

FIELD REVIEW PLANS:

Unless stated otherwise in the CONTRACT, the following specific requirements are typical for this phase:

Part 1 - PRE-DESIGN CONFERENCE

The purpose of the conference is to discuss LPA procedures, contract administration, data required by this CONTRACT, the design criteria, and other matters as the parties deem necessary. After the Pre-Design Conference, the Project Director shall authorize the CONSULTANT to proceed with the preparation of the conceptual design plans.

Part 2 - CONCEPTUAL PLANS

The CONSULTANT shall prepare and submit conceptual plans for the project to include, where applicable:

- A. **CONCEPTUAL PLANS:** Title Sheet(s), typical sections, plan-profile sheets, traffic control sheets, conceptual permanent directional signing layout sheets, special design sheets where needed, phase construction sheets as required (plan & elevation).

Part 3 - FIELD INSPECTION PLANS

The CONSULTANT shall prepare and submit field inspection plans in accordance with the LPA'S format based on the approved conceptual plan. The field inspection plans shall contain, as a minimum:

- A. **FIELD INSPECTION PLANS:** Title sheet, typical sections, preliminary listing of pay items, plan and profile sheets showing all geometrics, profile grades, construction limits, cross-sections, preliminary earthwork quantities, preliminary pavement marking sheets, size and location of all drainage structures, as well as any traffic control that will be required during construction. Cross drain structures shall be plotted on the cross sections.

After the field review is conducted, the CONSULTANT shall provide the LPA with written updated construction opinion of probable cost. This OPC shall be based on historical cost data from similar MDOT projects.

Part 4 - OFFICE REVIEW PLANS

After the Office Review plans (100% plan development, pending final review) are complete, the CONSULTANT shall submit one (1) set of reproducible plans for review by the LPA. A final Office Review will be required and the CONSULTANT shall be required to attend. Allow approximately three (3) weeks from the submittal date of the reproducibles for scheduling and completing the Office Review. In the office review, the LPA shall review and mark the plans with all required revisions.

After the Office Review is conducted, the CONSULTANT shall provide the LPA with a written updated construction opinion of probable cost. This OPC shall be based on the plan quantities and historical cost data for the pay items.

Part 5 - FINAL CONTRACT PLANS

The final contract plans shall include all items required in the final right-of-way plans and all other information such as, but not limited to:

- A. **FINAL CONTRACT PLANS:** Title sheet; detailed index; general notes; typical sections; summary of quantities; estimated quantities; plan-profile sheets; special design sheets; and all notes and data used to develop the plans.

ADVERTISEMENT:

The Consultant shall prepare legal advertisement for the referenced project and shall ensure the project follows the LPA Project Development Manual and is properly advertised per Mississippi State bidding laws and regulations. These services include the following:

- Preparing the advertisement
- Bidder Coordination
- Receive and evaluate bids
- Assemble Bids and Submit

Additional Items included in the scope of work:

1. Completion of forms LPA-100, LPA-700/800, and Env-160
2. Completion of Sampling and Testing Proposal
3. Assist in the bid opening and prepare items for concurrence to award the project

Items Not included in the scope of work:

1. Boundary Survey
2. Cultural Resource survey
3. Threatened and Endangered Species survey
4. Wetlands delineation and mitigation
5. Right-of-way Acquisition Services
6. Environmental Assessments
7. Re-bidding the Project

EXHIBIT C
GENERAL TERMS AND CONDITIONS

1. **Relationship between Engineer and Client.** Engineer shall serve as Client's professional engineering consultant in those phases of the Project to which this Agreement applies. The relationship is that of a buyer and seller of professional services and it is understood that the parties have not entered into any joint venture or partnership with the other, nor is the relationship a fiduciary relationship between Engineer and Client. The Engineer shall not be considered to be the agent of the Client. To the extent that Client is a public entity or a person or entity obligated to repay some or all of an amount borrowed in a municipal securities offering, it is expressly understood and agreed that the Engineer is not acting as a municipal advisor to the Client, as that term applies to the Dodd-Frank Wall Street Reform and Consumer Protection Act and its supporting regulations, that Engineer's services will not include the provision of advice or recommendations regarding municipal financial products or the issuance of municipal securities, and that the Client is responsible for retaining an independent registered municipal advisor for such advice or recommendation.

2. **Responsibility of the Engineer.** Engineer will perform services under this Agreement in a manner consistent with that standard of care and skill ordinarily exercised by members of the profession currently practicing in the same locality under similar conditions. No other representation, express or implied, and no warranty or guarantee is included or intended in this Agreement or in any report, opinion, document, or otherwise.

Notwithstanding anything to the contrary which may be contained in this Agreement or any other material incorporated herein by reference, or in any agreement between the Client and any other party concerning the Project, the Engineer shall not have control of and shall not be responsible for the means, methods, techniques, sequences or procedures of construction; or the safety, safety precautions or programs of the Client, the construction contractor, other contractors or subcontractors performing any of the work or providing any of the services on the Project. Nor shall the Engineer be responsible for the acts or omissions of the Client, or for the failure of the Client, any contractor or subcontractor, or any other engineer, architect or consultant not under contract to the Engineer to carry out their respective responsibilities in accordance with the Project documents, this Agreement or any other agreement concerning the Project.

Engineer shall determine the amounts owing to the construction contractor and recommend in writing payments to the contractor in such amounts. By recommending any payment, the Engineer will not thereby be deemed to have represented that exhaustive, continuous or detailed review or examinations have been made to check the quality or quantity of the contractor's work.

3. **Responsibility of the Client.** Client shall provide all criteria and full information as to his requirements for the Project, including budgetary limitations. Client shall arrange for Engineer to enter upon public and private property and obtain all necessary approvals and permits required from all governmental authorities having jurisdiction over the Project.

Client shall give prompt written notice to the Engineer whenever Client observes or otherwise becomes aware of any development that affects the scope or timing of Engineer's

services, or any defect or nonconformance in the work of any construction contractor.

The Client shall promptly report to the Engineer any defects or suspected defects in the Engineer's services of which the Client becomes aware, so that the Engineer may take measures to minimize the consequences of such a defect. The Client further agrees to impose a similar notification requirement on all contractors in its Client/Contractor contract and shall require all subcontracts at any level to contain a like requirement. Should legal liability for the defects exist, failure by the Client and the Client's contractors or subcontractors to notify the Engineer shall relieve the Engineer of any liability for costs of remedying the defects about the sum such remedy would have cost had prompt notification been given when such defects were first discovered.

Client shall examine all documents presented by Engineer, obtain advice of an attorney or other consultant as Client deems appropriate for such examinations and provide decisions pertaining thereto within a reasonable time so as not to delay the services of the Engineer.

4. **Designation of Authorized Representatives.** Each party shall designate one or more persons to act with authority in its behalf with respect to appropriate aspects of the Project. The persons designated shall review and respond promptly to all communications received from the party.

5. **Ownership of Documents.** Drawings, specifications, reports and any other documents prepared by Engineer in connection with any or all of the services furnished hereunder shall be the property of Engineer. Engineer shall have the right to retain copies of all documents and drawings for its files.

6. **Reuse of Documents.** All documents, including drawings and specifications furnished by Engineer pursuant to this Agreement, are intended for use on the Project only. Client agrees they should not be used by Client or others on extensions of the Project or on any other project. Any reuse, without written verification or adaption by Engineer, shall be at Client's sole risk, and Client shall indemnify and hold harmless Engineer from all claims, damages, losses and expenses, including attorney's fees arising out of or resulting therefrom. Owner further acknowledges that any reports or studies prepared by Engineer are intended solely for the Owner's use and information, and the Owner shall defend and indemnify Engineer from any liabilities arising out of other entities' reliance on such reports or studies.

7. **Opinions of Cost.** Since the Engineer has no control over the cost of labor, materials, equipment or services furnished by the contractor, or over the contractor's methods of determining prices, or over competitive bidding or market conditions, the Engineer cannot and does not guarantee that proposals, bids or actual construction costs will not vary from his opinions or estimates of construction costs.

8. **Changes.** Client reserves the right by written change order or amendment to make changes in requirements, amount of work, or engineering time schedule adjustments; and Engineer and Client shall negotiate appropriate adjustments in fee and/or schedule acceptable to both parties to accommodate any changes or Additional Services.

9. **Delays.** If the Engineer's services are delayed by the Client, or for other reasons beyond the Engineer's control, for more than one year, the fee provided for in this Agreement shall be adjusted equitably.

EXHIBIT C
GENERAL TERMS AND CONDITIONS

10. **Subcontracts.** Engineer may subcontract portions of the services, but each subcontractor must be approved by Client in writing.
11. **Suspension of Services.** Client may, at any time, by written order to Engineer, require Engineer to stop all, or any part, of the services required by this Agreement. Upon receipt of such an order, Engineer shall immediately comply with its terms and take all reasonable steps to minimize the occurrence of costs allocable to the services covered by the order. Client, however, shall pay all costs associated with suspension including all costs necessary to maintain continuity and the staff required to resume the services upon expiration of the suspension of work order. Engineer will not be obligated to provide the same personnel employed prior to suspension when the services are resumed in the event the period of any suspension exceeds 30 days. Client will reimburse Engineer for the costs of such suspension and remobilization.
12. **Termination.** This Agreement may be terminated by either party upon 30 days' written notice in the event of substantial failure by the other party to perform in accordance with the terms hereof through no fault of the terminating party. This Agreement may be terminated by Client, under the same terms, whenever Client shall determine that termination is in its best interests. Cost of termination, including salaries, overhead and fee, incurred by Engineer either before or after the termination date shall be reimbursed by Client.
13. **Notices.** Any notice or designation required to be given by either party hereto shall be in writing and, unless receipt of such notice is expressly required by the terms hereof, it shall be deemed to be effectively served when deposited in the mail with sufficient first class postage affixed and addressed to the party to whom such notice is directed at such party's place of business or such other address as either party shall hereinafter furnish to the other party by written notice as herein provided.
14. **Indemnification.** Engineer shall indemnify and hold harmless Client from Client's loss or expense, including reasonable attorney's fees for claims for personal injury (including death) or property damage to the extent caused by the negligent act, error or omission of Engineer.

Client shall indemnify and hold harmless Engineer from Engineer's loss or expense, including reasonable attorney's fees, for claims for personal injuries (including death) or property damage to the extent caused by the negligent act, error or omission of Client.

In the event of joint or concurrent negligence of Engineer and Client, each shall bear that portion of the loss or expense that its share of the joint or concurrent negligence bears to the total negligence (including that of third parties) which caused the personal injury or property damage.

Client shall not be liable to the Engineer, and the Engineer shall not be liable to the Client, for any special, incidental or consequential damages, including, but not limited to, loss of use and loss of profit, incurred by either party due to the fault of the other, regardless of the nature of this fault, or whether it was committed by the Client or the Engineer or their employees, agents or subcontractors, by reason of services rendered under this Agreement.

Engineer's indemnification obligation as set forth herein is expressly subject to and limited by the limitation of liability provision agreed upon by the Client and Engineer as set forth in Section 21, "Risk Allocation" of this Agreement.

Client waives any rights or claims for damage to persons or property that it or any of its successors in interest or insurers may have against Engineer for any claim or action arising out of Engineer's scope of services related to the Project or this Agreement, but only to the extent that such rights or claims for damages are covered by a policy of liability, casualty, property or other insurance, regardless of who procures such insurance.

15. **Legal Proceedings.** In the event Engineer's employees are at any time required by Client to provide testimony, answer interrogatories or otherwise provide information ("testimony") in preparation for or at a trial, hearing, proceeding on inquiry ("proceeding") arising out of the services that are the subject of this Agreement, where Engineer is not a party to such proceeding, Client will compensate Engineer for its services and reimburse Engineer for all related direct costs incurred in connection with providing such testimony. This provision shall be of no effect if the parties have agreed in a separate agreement or an amendment to this Agreement to terms which specifically supersede this provision, nor shall this provision apply in the event Client engages Engineer to provide expert testimony or litigation support, which services shall be the subject of a separate agreement or an amendment to this Agreement.
16. **Successors and Assigns.** The terms of this Agreement shall be binding upon and inure to the benefit of the parties and their respective successors and assigns; provided however, that neither party shall assign this Agreement in whole or in part without the prior written approval of the other.
17. **Insurance.** Within the context of prudent business practices, Engineer shall endeavor to maintain workmen's compensation and unemployment compensation of a form and in an amount as required by state law; comprehensive general liability with limits of at least \$500,000/ \$1,000,000; automotive liability with limits of at least \$500,000/ \$500,000; and professional liability insurance with an annual limit of at least \$500,000. Client recognizes that insurance market is erratic and Engineer cannot guarantee to maintain the coverages identified above.
18. **Information Provided by the Client.** The Engineer shall indicate to the Client the information needed for rendering of services hereunder. The Client may elect to provide this information (including services by others) to the Engineer. In this case, the Client recognizes that the Engineer cannot assure the sufficiency of such information. Accordingly, the Engineer shall not be liable for any claims for injury or loss arising from errors, omissions or inaccuracies in documents or other information provided by the Client. In addition, the Client agrees to compensate the Engineer for any time spent or expenses incurred in defending such claim or in making revisions to his work as a direct or indirect result of information provided by the Client which is insufficient.
19. **Subsurface Conditions and Utilities.** Client recognizes that a comprehensive sampling and testing program implemented by trained and experienced personnel of Engineer or Engineer's subconsultants with appropriate equipment may fail to detect certain hidden conditions. Client also recognizes that actual environmental, geological and geotechnical conditions that Engineer properly inferred to exist between sampling points may differ significantly from those that actually exist.

Engineer will locate utilities which will affect the project from information provided by the Client and utility companies and

EXHIBIT C
GENERAL TERMS AND CONDITIONS

from Engineer's surveys. In that these utility locations are based, at least in part, on information from others, Engineer cannot and does not warrant their completeness and accuracy.

20. **Hazardous Materials.** When hazardous materials are known, assumed or suspected to exist at a project site, Engineer is required to take appropriate precautions to protect the health and safety of his personnel, to comply with the applicable laws and regulations and to follow procedures deemed prudent to minimize physical risks to employees and the public. Client hereby warrants that, if he knows or has any reason to assume or suspect that hazardous materials may exist at the project site, he will inform Engineer in writing prior to initiation of services under this Agreement.

Hazardous materials may exist at a site where there is no reason to believe they could or should be present. Client agrees that the discovery of unanticipated hazardous materials constitutes a changed condition mandating a renegotiation of the scope of work or termination of services. Engineer agrees to notify Client as soon as practically possible should unanticipated hazardous materials or suspected hazardous materials be encountered. Client waives any claim against Engineer and agrees to indemnify, defend and hold Engineer harmless from any claim or liability for injury or loss arising from Engineer's encountering unanticipated hazardous materials or suspected hazardous materials. Client also agrees to compensate Engineer for any time spent and expenses incurred by Engineer in defense of any such claim.

21. **Risk Allocation.** The Client recognizes that Engineer's fee includes an allowance for funding a variety of risks which affect the Engineer by virtue of his agreeing to perform services on the Client's behalf. One of these risks stems from the Engineer's potential for human error. In order for the Client to obtain the benefits of a fee which includes a lesser allowance for risk funding, the Client agrees to limit the Engineer's liability to the Client and all construction contractors arising from the Engineer's professional acts, errors or omissions, such that the total aggregate liability of the Engineer to all those named shall not exceed \$50,000 or the Engineer's total fee for the services rendered on this project, whichever is greater.
22. **Anticipated Change Orders.** Client recognizes and expects that a certain amount of imprecision and incompleteness is to be expected in construction contract documents; that contractors are expected to furnish and perform work, materials and equipment that may reasonably be inferred from the contract documents or from the prevailing custom or trade usage as being required to produce the intended result whether or not specifically called for; and that a certain amount of change orders are to be expected. As long as Engineer provides services in a manner consistent with that standard of care and skill ordinarily exercised by members of the profession currently practicing in the same locality under similar conditions, client agrees not to make any claim against Engineer for cost of these change orders unless these costs become a significant part of the construction contract amount. In no case will Client make claim against Engineer for costs incurred if the change order work is a necessary part of the Project for which Client would have incurred cost if work had been included originally in the contract documents unless Client can demonstrate that such costs were higher through issuance of the change order than they would have been if originally included in the contract documents in which case any claim of Client against Engineer will be limited to the cost increase and not the entire cost of the change order.

23. **Payment.** Engineer shall submit monthly invoices, or invoice submittal will be as noted in the agreement, to the Client. Payment in full shall be due upon receipt of the invoice. Payment of any invoices by the Client shall be taken to mean that the Client is satisfied with the Engineer's services to the date of the payment and is not aware of any deficiencies in those services. If payments are delinquent after 30 days from invoice date, the Client agrees to pay interest on the unpaid balance at the rate of one percent (1%) per month. Payment will be credited first to any interest owed then to principal. If the Client fails to make payments, the Engineer, after giving seven (7) days written notice to the Client, may suspend services until the Client has paid in full all amounts due for services, expenses, and other related charges, without recourse to the Client for loss or damage caused by such suspension. The Client further waives any and all claims against the Engineer for any such suspension. Payment for Engineer's services is not contingent on any factor, except the Engineer's ability to provide services in a manner consistent with that standard of care and skill ordinarily exercised by members of the profession currently practicing in the same locality under similar conditions. Payment of invoices shall not be subject to any discounts, set-offs or back-charges unless agreed to in writing by both parties. If the Client contests an invoice, the Client may withhold only that portion so contested and pay the undisputed portion, after the Client has notified the Engineer in writing within 30 days of receiving the invoice and shall identify the specific cause of the disagreement and the amount in dispute.

If Engineer brings any action at law or in equity to enforce or interpret the terms of this Agreement, or if Engineer must either prosecute or defend any action related to the subject matter of the Agreement, and prevails in such action, then Engineer shall be entitled to reasonable attorney's fees, expenses and costs, including expert witness fees, if applicable.

24. **Force Majeure.** Neither Client nor Engineer shall be liable for any fault or delay caused by any contingency beyond their control, including, but not limited to, acts of God, wars, strikes, walkouts, fires, natural calamities, or demands or requirements of governmental agencies.
25. **Compliance with Laws.** To the extent they apply to its employees or its services, the Engineer shall comply with all applicable United States, state, territorial and commonwealth laws, including ordinances of any political subdivisions or agencies of the United States, any state, territory or commonwealth thereof.
26. **Separate Provisions.** If any provisions of this Agreement are held to be invalid or unenforceable, the remaining provisions shall be valid and binding.
27. **Governing Law.** This Agreement shall be governed by and construed in accordance with the laws of the principal place of business of the Engineer.
28. **Dispute Resolution.** All disputes, controversies or claims, of whatever kind or character, between the Parties, their agents and/or principals, arising out of or in connection with the subject matter of this Agreement shall be litigated in no other venue other than the Circuit Court of Madison County, Mississippi, or the United States District Court which includes within its geographical Division, Madison County, Mississippi; and shall be litigated only before a judge hearing the matter alone, as both finder of fact and law, without a jury.

EXHIBIT C
GENERAL TERMS AND CONDITIONS

By entering into this agreement, the parties knowingly, purposefully and intelligently agree to waive their individual rights to have any dispute, controversy or claim amongst and between them, to include the Contractor's individual Shareholders, Directors and Officers, decided, heard or adjudged by a trial by jury.

Client or Engineer gives the other written notice of objection to any term or condition before commencement of performance in connection with any other provision of services or projects involving the two of them.

29. **Additional Services.** Services resulting from significant changes in the general scope, extent or character of the Project designed or specified by Engineer or its design including, but not limited to, changes in size, complexity, Client's schedule, construction schedule, character of construction or method of financing; and revising previously accepted studies, reports, design documents or Contract Documents when such revisions are required by changes in laws, rules, regulations, ordinances, codes or orders enacted subsequent to the preparation of such studies, reports or documents, or are due to any other causes beyond Engineer's control.
30. **Amendment.** This Agreement shall not be subject to amendment unless another instrument is executed by duly authorized representatives of each of the parties.
31. **Entire Understanding of Agreement.** This Agreement represents and incorporates the entire understanding of the parties hereto, and each party acknowledges that there are no warranties, representations, covenants or understandings of any kind, matter or description whatsoever, made by either party to the other except as expressly set forth herein. Client and Engineer hereby agree that any purchase orders, invoices, confirmations, acknowledgments or other similar documents executed or delivered with respect to the subject matter hereof that conflict with the terms of this Agreement shall be null, void and without effect to the extent they conflict with the terms of this Agreement.
32. **Survival of Provisions.** The provisions of this Agreement shall continue to be binding upon the parties hereto notwithstanding termination of this Agreement for any reason.
33. **Nonwaiver.** No waiver by a party of any provision of this Agreement shall be deemed to have been made unless in writing and signed by such party.
34. **Identity of Project Owner.** Within ten (10) days of the entry of this Agreement, Client, if Client is not the Project Owner, shall provide to Engineer the following information relative to the Project Owner: Project Owner's full legal name; Project Owner's physical address; Project Owner's mailing address; and the name, physical address and mailing address of the Client's point of contact with the Owner for the Project.
35. **Conflicting Terms.** In the event that there are multiple agreements with varying or conflicting terms and conditions between Client and Engineer, the Terms and Conditions contained in this Agreement shall supersede and have precedence over any other terms and conditions contained in any other written or oral agreement entered into between Client and Engineer that either actually do or appear to conflict with the Terms and Conditions contained in this Agreement, regardless of when, in relationship to these Terms and Conditions contained in this Agreement, such other written or oral agreement was actually entered into between Client and Engineer.
36. **Course of Dealing.** Client and Engineer agree that these General Terms and Conditions establish a course of dealing between them and shall apply to this and all other services, projects, agreements or dealings between the them, unless
